

ACCEPTED ABSTRACTS

SWEMP 2007

1. Environmental Impacts of Artisanal and Small Scale Gold Mining in Developing Countries
Ernest Baafi (University of Wollongong) and Kaepae Ken Ail, (Papua New Guinea University of Technology), Australia
2. Investigation of Acid Generation Potential in Central Alborz Coal
Soheil Moshrefi-Mohamad Bager Eslami (Islamic Azad University of Savadkooh), Iran
3. Application of GIS to Analysis of Heavy Metal Contamination around Emarat Lead & Zinc Mine, Iran
Mohammad Reza Hosseinnejad (IUST), Iran
4. New Acoustic Spirometers in Breathing Protection Problems
Shkundin S.Z. (Moscow State Mining University), Russia
5. Sandpit Lakes as a New Ecosystems in the Trebon Basin Biosphere Reserve
Olga Křiváčková (University of South Bohemia in České Budějovice) and Hana Čížková (Institute of Systems Biology and Ecology), Czech Republic
6. Permeable Reactive Barriers Using Red Mud to Treat of Acid Mine Effluents
Kostas Fytas (Laval University), Marie-Eve Desjardins, and David McConchie (Southern Cross University), Canada, Australia
7. Technology for Water-Fuel (water in oil type) Emulsion Preparation for Boilers of Heat Generating Installations
A.M. Balabyshko and R.Y. Poderni (Moscow State Mining University), Russia.
8. Blended Ester and Linear Paraffin as a Base Fluid for a Drilling Fluid System
Norrulhuda Mohd Taib and M. Imran Feroze (University Technology Petronas), Malaysia
9. New Approach to Defining Coal Mining Environmental Risks in Bosnia and Herzegovina
Zvezdan Karadzin, Edin Delic (Mining Institute Tuzla) Abdulah Basi, (University of Tuzla), Bosnia and Herzegovina
10. Recycling of Wastes from Closed Sn-W Mine Sludge Bed
Jiri Botula, Pavel Rucky, Radmila Samkova, Vlastimil Repka (VSB-Technical University of Ostrava), Czech Republic

11. New Technology for Utilization of Waste Residues for GHG Abatement and Environment Protection in Thailand
Krongkaew Laohalidanond and Cristain Wirtgen (RWTH Aachen University), Germany
12. Comparative Application of Environmental Bonding in Mining
R. Poulin and M. Jacques (Université Laval), Canada
13. Strategy of Reconstruction of Ecological and Aesthetical Functions of the Landscape in Kladno Region Disturbed by Hard Coal Mining
Miroslav Martis, Vladimír Zdrzil, and Emilie Pecharová (University of Life Sciences in Prague), Czech Republic
14. Lifecycle Carbon Dioxide Emission by Nickel Recovery from Wastes
Masayuki Sagisaka, Onoye Toshio, Tashiro Kyoichi, Kobayashi Kensuke, Thara Kiyotaka, Kitamura Osamu (National Institute of Advanced Industrial Science and Technology), Japan
15. Agricultural By-products as Mercury Adsorbents in Flue Gas Applications
K. Thomas Klasson, Isabel M. Lima, Wayne E. Marshall (USDA-ARS-SRRC), United States
16. Nanomaterials in Mining Environment Remediation and Mineral Processing: New Approaches to Old Problems
Louis Mercier, Luc Beaudet, Adil Aledresse, Laxman Amaratunga (Laurentian University), Canada
17. Overcoming Bureaucratic Obstacles to the Re-Use of Metallurgical Slag - A South African Case Study
Suzanna Oelofse (CSIR), South Africa
18. Evaluation of the Vegetation Function in the New Landscape Units After Brown Coal Mining
Hana Broumová, Kateřina Novotná, and Emilie Pecharová (University of South Bohemia in Ěeské Budějovice), Czech Republic
19. Consultancy Report on POPs-Contaminated Sites of Ethiopia - POPs/NIP Project: EPA/UNIDO, Addis Ababa Ethiopia
Semret Mezgebu and Esayas Dagew (WASTE, Advisors on Urban Environment and Development), The Netherlands
20. Determining Environmental Effects of Utilizing or Disposing of Pulverised Fly Ash from UK Power Stations
Mohammad Zandi and Nigel Russel (Company: University of Sheffield), United Kingdom

21. Stabilizing Slags from Recycling Lead Acid Vehicle Batteries
Mohammad Zandi, Nigel Russell, Robert G J Edyvean, Russell Hand and Phil Ward
22. (University of Sheffield), United Kingdom
23. Predicting Time of Mine Crew Evacuation in Case of Underground Fire
*Andrzej Strumiński and Barbara Madeja - Strumińska, (Technical University of
Wrocław), Poland*
24. Waste Rock Dump Capping Strategy and Soil Moisture Probe Research for
Closure at Chatree Gold Mine
*Fiona Tromans, Yaowanud Chundung, Thananan Pratummin, Andrew Pearce, Peter
Macey and Allan Watson (AustralAsian Resource Consultants Pty Ltd.), Australia*
25. Chatree Gold Mine Tailings Storage Facility Rehabilitation Study
*Fiona Tromans, Yaowanud Chundung and Thananan Pratummin (AustralAsian
Resource Consultants Pty Ltd.), Australia*
26. The Pollution and Destruction Potential of Gold Mining Waste on the
Witwatersrand – A West Rand Case Study
Suzan Oelofse, Jude Cobbing and Jeanette Rascher (CSIR), South Africa
27. Isotopic Effects Using for Exploration of Coal, Ore, Oil and Gas Deposits
*Saule Myrzaliyeva (National Center on Complex Processing of Mineral Raw
Materials of the Republic of Kazakhstan)*
28. Assessing the External Costs of Fossil Fuelled Power Plants for Policy Purposes:
Transferred vs. Site-Specific Values
Dimitris Damigos and Dimitris Kaliampakos (NTUA), Greece
29. Mining and the Environment in Argentina: Analysis of controversial cases
J.C. Avila (University of Tucumán), Argentina
30. The Contribution of Industrial Minerals to the Reduction of Environmental
Impacts of Abrasive Blast - Cleaning
*Dimitris Labrakis and D. Kaliampakos (National Technical University of Athens),
Greece*
31. Sustainable Futures for the Mining and Minerals Processing Sector: Turning
Liabilities into Assets
*D. McConchie (Southern Cross University), M. Clark (Laval University), K. Fytas
(Laval University), S. de Boer (Southern Cross University), Australia and Canada*
32. Industrial Hygiene in Underground Mines: Using a Software to Teach Sampling
Strategy
*Wilson Iramina, Sergio Eston, Ivan Tachibana and Andre Beltrame (University of
Sao Paulo), Brazil*

33. Characterization of Arsenic Adsorption onto Natural Iron Oxides by Electroacoustic Measurements
S. Aredes, M. Pawlik, and B. Klein (Norman B. Keevil Institute of Mining Engineering, University of British Columbia), Canada
34. Environmental Benefits of Underground Pre-concentration Systems
Bamber, B. Klein, M.J. Scoble (Norman B. Keevil Institute of Mining Engineering, University of British Columbia) Canada
35. Alternative Ways for Greenhouse Gas Abatement of Electric Industry in Korean Energy Policy
Young Eal Lee and Young-Beom, Jung (Korea Electric Power Research Institute), Korea
36. Development of Technologies for Recycling Construction and Demolition Waste
Toyoharu Nawa (Hokkaido University), Japan
37. Problems and Measures on the Heavy Metals Contained Sludge Generated by AMD Treatment in Japan
Nobuyuki Masuda (Japan Oil, Gas and Metals National Corporation), Japan
38. Asian Prospects of Coalbed Methane as a Clean Energy Resource
Sohei Shimada (The University of Tokyo), Japan
39. Energy Consumption in Cement Industry
Alicja Uliasz Bocheńczyk, Lidia Gawlik, and Eugeniusz Mokrzycki (Mineral and Energy Economy Research Institute) Poland
40. Developing Environmental Concepts for Vietnamese Coal Mines
Katrin Broemme, Harro Stolpe, and Mien Tran(Bochum University), Germany
41. Indonesian Energy Intensity: It's Convergence toward Energy Intensity in Asia Pacific Developed Countries
Aryo Prawoto Wibowo and Fadhila Achmadi Rosyid (Institute Technology of Bandung), Indonesia
42. Mine Water Management on Pongkor Underground Gold Mine, PT Antam Tbk, Indonesia
Ginting Kusuma and Gautama Rudy (Institute Technology, Bandung), Indonesia
43. A Study on Geochemical Characteristics in Waste Rock Pile Producing Acid Mine Drainage using Stable Isotopes
Ju-In Ko, Sun-Joon Kim, Sang-Hun Lee, Ji-Eun Lee, Seung-Han Baek (Hanyang University), Korea

44. Use of Local Quartz Sand for Fabrication of Lead-Free High Refractive Index Glasses
Pisutti Dararutana, Pornsawat Wathanakul, and Narin Sirikulrat (The Royal Thai Army Chemical Department), Thailand
45. Neutralization of Waste-Water pH During Concrete Cutting Using Waterjet
Jae-Joon SONG, Chang-Hyun YEO, Jung-Gyu KIM (Soeul National University), Korea
46. Sustainability in Industrial Small Scale Mining
Per Nicolai Martens, Jose Pateiro-Fernandez and Simon Speer (RWTH Aachen University), Germany
47. Sources and Utilization of Coal Combustion Products in Poland
Krzysztof Galos, Jaroslaw Szlugaj, Ewa Lewicka, and Jaroslaw Kamyk (Mineral & Energy Economy Research Institute, Polish Academy of Sciences), Poland
48. Modelling and Assessment of Water Quality Data Influenced by Gold Mining in the Central Rand, South Africa
Ewa Cukrowska and Hlanganani Tutu (School of Chemistry, University of the Witwatersrand), South Africa
49. Geochemical Assessment of Heavy Metals Accumulation and Fractionation in Fluvial Sediments of the Central Rand Goldfield, South Africa
Hlanganani Tutu, Ewa Cukrowska, M. B. Ndasi, Terence. S. McCarthy, Moris. J. Viljoen (School of Chemistry, University of the Witwatersrand), South Africa
50. Development of a Test Procedure Using an Endemic Aquatic Macroinvertebrate in Determining the Toxicity of Various Mine Tailings
Carlos Primo David (National Institute of Geological Sciences), Philippines
51. Assessing Comminution Efficiency
Fiesal Musa and Rob Morrison (Julius Kruttschnitt Mineral Research Centre), Australia
52. In Situ Soil Remediation with HP Waterjet
Raimondo Ciccu, Battista Grosso, Marco Cigagna, and Paolo Tronci (University of Cagliari)
53. Innovative Technique for Decontamination and Recovery of Creosote Impregnated Railway Crossties
Paolo Plescia, Maria Tocino, Giuseppe Paoloni, and Rosario Sottile (National Research Council), Italy

54. An Assessment of Best Management Practices in Illinois to Minimize Sulfate and Chloride Discharges
Yoginder Chugh, Samrat Mohanty, and Paul Behum (Southern Illinois University), United States
55. Resource Recovery from Waste - Phosphogypsum Waste in Poland
Zygmunt Kowalski, Joanna Kulczycka, and Małgorzata Góralczyk (Mineral and Energy Economy Research Institute), Poland
56. In Vitro Oral Bioavailability Testing in Human Health Risk Assessment of Metal Contaminated Soils
Gerald J. Zagury (Ecole Polytechnique de Montréal), Canada
57. Passive Treatment of Highly Contaminated Acid Mine Drainage in Batch and Column Bioreactors
Gerald J. Zagury, Carmen Neculita and Bruno Bussière (Ecole Polytechnique de Montréal), Canada
58. Metal Balance in Thermal Treatment of CCA-Contaminated Soils
Reima Rönkkö, Désirée Nordmark, Jurate Kumpiene Lale Andreas & Anders Lagerkvist, (Luleå University of Technology), Sweden
59. Improvements of the Cyanide Destruction Process At Chatree Gold Mine
Warong Saranrittichai, Thailand
60. Mining and Environment - Integrated Environmental Planning and Dump Restoration in Mining Operations in Vietnam
Per Nicolai Martens, Jose Pateiro-Fernandez, and Shakeel Ahmad (RWTH Aachen University), Germany
61. Research of Possibilities to Obtain Titanium Oxides from Mineral Feedstock and Waste after Exploitation and Preparation
Jiri Botula, Pavel Rucky, and Katerina Novotna (Czech Republic)
62. Water Chemistry Investigation in the Vicinity of Imgi Mine to Assess the Pollution Potential in Soo-Young River, Korea
Young Wook Cheong, Sang Woo Ji, Jayanta Bhattacharya, Gil Jae Yim, Hyeon Seok Lee, Jeong Sik Min and Yong Suk Choi (Korea Institute of Geoscience and Mineral Resources), Korea
63. Employment of “Geo-Tubes” for the Sustainable Water Management in the Excavation Waste Processing
Elena Garbarino and Marilena Cardu (Politecnico di Torino), Italy

64. The Use of Electroosmotic Techniques to Improve Safety Conditions of Abandoned Tailing Dams
Battista Grosso, Marco Cigagna, Pier Paolo Manca, Paolo Tronci (University of Cagliari), Italy
65. Local, Regional and Global Initiatives Addressing Environmental Management Issues in the Mining Sector
Adam P. Jarvis, Jaime M. Amezaga and Paul L. Younger (Institute for Research on Environment & Sustainability, Newcastle University), United Kingdom
66. Stakeholder Participation in Post-Closure Land Use Decision Making
Stefan Rutkowski and Fred Claridge (Worley Parsons Komex), Indonesia and Canada
67. The Environmental Problems Aroused From Metro Excavations in Istanbul and Solution Suggestions
Ybrahim Ocak (Istanbul Metropolitan Municipality), Turkey
68. The Unique Landfill Site and the Mine Void Backfill as Solutions for the Environmental Safety of the Abandoned Mine Areas
Pier Paolo Manca and Tronci Cigagna (DIGITA UNICA), Italy
69. Use of RS and GIS techniques in Mining Site Soil Erosion Monitoring: A Case Study in Huojitu, China
Chengxue Li, Shilu Tang, Xia Lu, Chengbing Yang, Jingtao Kang (China University of Mining & Technology), China
70. Develop the Coal - Water Slurry (CWS) in the Countries in Rich Coal and Lack Oil
Lisheng Wu, United States
71. Eco-Environmental Damage Evaluation for Resource-Exhausted Coal Mining Area Based on GIS- A Case Study in MTG District, China
Hu Zhenqi and Wang Linlin (China University of Mining and Technology), China
72. Mine City Land-Use Analysis after Mine Closure
Liu Xitao (Research Institute of Land Reclamation and Ecology Restoration), Bao Yan (China University of Mining and Technology), Hu Zhenqi (Research Institute of Land Reclamation and Ecology Restoration) Wang Qingle (Qixia Traffic Bureau), China
73. Study on Safety Variety Division of Subsidence Area of Coal extraction
Bao Yan (Beijing University of Technology Beijing), Huang Chaohua (Beijing Yupont Electric Power Limited Company), Liu Xitao (Research Institute of Land Reclamation and Ecology Restoration), Shan Biaoyun (Laiwu Highway Bureau), China

74. Case Study of Geological Environment Remediation and Planning in Shanjia Village
Yanling Zhao, Zhenqi Hu, Weijie Liu, Shilu Tang (Institute of Land Reclamation & Ecological Restoration, School of Resource and Safety Engineering, China University of Mining & Technology), China
75. Research on 3-Dimensional Laser Scanner System Monitoring the Land Sliding of the Strip Mine
Yang Fan, Hu Zhen-qi, Qian Jian-guo, Li Hui (Institute of Land Reclamation and Ecological Reconstruction, School of Geomatics, Liaoning Technical University, State Key Laboratory of Coal Resources and Safe Mining, China University of Mining & Technology), China
76. A Study on Catalytic Pyrolysis of Safflower Seed
Ozlem Onay, Caglayan Acikgöz, Ö.Mete Kockar (Anadolu University), Turkey
77. Sorption and Desorption of Zinc from Illite Silica
Aneel Kumar, Jiro Takemura, Hideo Nakajima (Tokyo Institute of Technology), Japan
78. Assessing Stability of Waste Dump - A Case Study
T.N. Singh, K.S. Barde, N.Purwar, S. Gupta and K. Sarkar (IIT Bombay), India
79. The Use of Factorial Kriging Analysis to Distinguish Natural from Anthropogenic Sources of Trace Metals in the Topsoils of Lavrio, Greece
Anna Korre, Claire Imrie and Sevket Durucan (Imperial College London), United Kingdom
80. Application of the Multi-Product Allocation Principle to Mining Life Cycle Assessment at a Zn-Pb Mine in Europe
Anna Korre, Gabriela Munoz Melendez and Sevket Durucan (Imperial College London), United Kingdom
81. Life Cycle Modelling of Fossil Fuel Power Generation with Post Combustion CO₂ Capture
Anna Korre, Zhengang Nie and Sevket Durucan (Imperial College London), United Kingdom
82. Environmental Impact Assessment on the Restoration Plan of Reclaimed Farmland Landscape in Coal Mining Areas
Meichen Fu (China University of Geosciences) and Zhenqi Hu (China University of Mining and Technology), China

83. Dynamic Changes of Ecological Footprint of a Mining City in China: A Case Study of Wu'an City
Jianjun Zhang (China University of Geosciences), Meichen Fu (China University of Mining and Technology), Hui Zeng (China University of Mining and Technology), China
84. In Situ Remediation of Contaminated Soil and Ground Water - Principles and Practices
Robert L. Siegrist (Colorado School of Mines), United States
85. Enhanced Sampling Methods for Improved Performance Assessment during Remediation of Organically Contaminated Sites
Robert L. Siegrist (Colorado School of Mines), Ryan Oesterreich (Environmental Science and Engineering), Leanna Woods (Environmental Science and Engineering), Ben Petri (Environmental Science and Engineering), Michelle Crimi (East Tennessee State University), United States
86. Laboratory Investigation of Hydrogen Cyanide (HCN) Gas Formation from Cemented Paste Fill (CPF) Samples
Hla Aye Saw and Ernesto Villaescusa (CRC Mining, Curtin University of Technology), Australia
87. Utilization of the Bottom Ash from Thermoelectric Power Plant as Stabilization Materials in Dredged Ground
Kim Jong-Yun, Han Sang-Jae, Lim Nam-Woong (Hanyang University), Korea
88. Stream Water Quality and Metal Bioavailability Around the Rapel Basin, Central Chile
Anna Korre and Paula Ramirez-Munoz (Imperial College London), United Kingdom
89. Study of the Settling Characteristics of Tailings using Nuclear Magnetic Resonance (NMR) Technique
Sandra Carolina Motta Cabrera, Apostolos Kantzas, Jonathan Bryan (University of Calgary), Canada
90. A Study on Impact of Global Pollution Reduction Instruments on Indian Coal Based Energy Industries
Amarendra Kumar and Jayanta Bhattacharya (Department of Mining Engineering, Indian Institute of Technology), India
91. Challenges and Success of an Environmental Management System Implementation: The Leighton Experience
Liezzel Aquino, David Jerdin and Phil Naughton (Leighton Contractors (Philippines) Inc).

92. Energy Profit Ratios and Economic Values of Non-Conventional Oil Development
Gento Mogi (The University of Tokyo), Yosuke Adachi (Japan Petroleum Exploration Co.Ltd.), Masanari Koike (The University of Tokyo), and Waleed Al-Bedaiwi (Saudi Petroleum Co.Ltd.), Japan and Saudi Arabia
93. Catchment-Scale Modelling of the Effects of Abandoned Metal Mines on Groundwater Quality
Barbara Palumbo-Roe, Vanessa J. Banks, Jennifer Cunningham, Simon R. Chenery and Ben A. Klinck (British Geological Survey), United Kingdom
94. Study on a Model of Assessing the Effect of Green-House Gasses from Spontaneous Combustion in Xinjiang Coal-Field
Zeng Qiang (Xinjiang Coal Science Institute) and Chang Xin Tan (Xian University of Science and Technology), China
95. Comprehensive Ecological Restoration of Abandoned Mine Sites – A Case Study in Jiawang District, Xuzhou, China
Zhang Jirui, Cheng Jian, Wang Xiaoxiao, Lv Xiangrang, Xu Yumel (Land Resource Bureau of Jiawang District), China
96. Environmental Impact Assessment, Ecological Rehabilitation and Pollution Control in a Proposed Gold Mining Area in Guizhou Province, China
Ge Hao (College of Biology technology and Engineering ,Guizhou Normal University), Jiang Ping (Environmental Protection Agency), Ma Liying (Geographical and Biological Institute, Guizhou Normal University), China
97. The National Abandoned and Orphaned Mines Initiative-Canada-Progress and Problems-an Update
Patrick Reid (Patrick Reid & Associates), Canada
98. Use of Numerical Modeling to Prediction of Thermal Regime of Tailings Deposits in Cold Regions Based on Tailings Deposition Plan
Fernando Junqueira, Terry Eldridge, Marcelo Musse and Marco Barrientos (Golder Associates Ltd.), Canada
99. Management Tools for Tailings Impoundment Modeling
Marco Barrientos, Marcelo Musse (Golder Associates S.A., Santiago), Chile, Terry Eldridge (Golder Associates LTDA), Canada
100. Satellite Image Based Strategies to Evaluate the Impact of Dismissed Mine Site: An Application to the Mae Moh Lignite Mine in Northern Thailand
Giuseppe Bonifazi, Lino Nardoni, Silvia Serranti and Fabio Volpe (Sapienza - Università di Roma), Italy

101. Using the "Dry-Tomb" Technique in the Remediation of Heavily Contaminated Land

Dimitris Kaliampakos and Theodora Karachaliou (NTUA), Greece

102. Waste Dump Site Selection in Open Pit Mines Using Fuzzy MADM Algorithm

A. Hekmat, M. Osanloo and M. Akbarpur Shirazi (Amirkabir University of Technology), Iran

103. Effect of CO₂ Injection on Structure of Coal

Satyra Harpalani (Southern Illinois University), United States

104. Seepage Assessment at a West Australian Minesite Using an Unsaturated Flow Model

Stefan Godeke and Rob Wallis (URS Australia Pty Ltd), Australia

105. Acid Rock Drainage Management at Pt. Kaltim Prima Coal and Its Relationship With Water Quality Regulations in Indonesia

Candra Nugraha, Imanuel Manege, Takashi Sasaoka, Hideki Shimada, Masatomo Ichinose, and Kikuo Matsui (Faculty of Engineering, Kyushu University), Japan, (Environment Department, PT. Kaltim Prima Coal), Indonesia

106. Comparative Performance of Nutrient Sources in Bioremediation of Crude Oil Contamination: A Field Test in Coastal Environment Using Biostimulation Method

Mukhtasor and Munawar (Department of Ocean Engineering, Institute of Technology Sepuluh Nopember - ITS), Indonesia

107. A Case Study of an Active Landslide During the Post-Coal Mining Reclamation and Forestation Processes

Nuray Tokgoz (Istanbul University, Faculty of Engineering), Turkey

108. Whole Body Vibrations in Mining Remediation Activities

Giorgio Massacci and Valentina Dentoni (DIGITA - Univ. di Cagliari), Italy

109. Using GIS-Based Weights-of-Evidence Method for Assessing Mining Induced Rock Fall

Ernest Baafi and Hani Zahiri (University of Wollongong, School of Civil, Mining and Environmental Engineering), Australia

110. Utilization of Waste Products of Mining Processes

Urszula Lorenz and Lidia Gawlik (Mineral and Energy Economy Research Institute), Poland

111. Mining Renovate Model in the World Cultural Heritage Area of Peking Man Based on the “3S” Technologies, Beijing, China

Tian Yi (China University of Geosciences), Chen Jian-Ping (China University of Geosciences and China University of Geosciences and Beijing Key Laboratory of Research and Exploration Information of Land Resources), Niu Lin (China University of Geosciences), Ding Zhi-Guo (China University of Geosciences), Meng Li-Na (China University of Geosciences).

112. Fundamentals and Results of Use of Biodiesel in Large Mobile Mining Fleets

Carsten Drebenstedt and Jürgen Jauer (TU Bergakademie Freiberg), Germany

113. Prediction Model for Vertical Surface Movements in Mine Flooding

Carsten Drebenstedt and Juraj Ortuta (TU Bergakademie Freiberg), Germany

114. Ecology of a Hypersaline Gold Mining Tailings Facility in the Eastern Goldfields of Western Australia: A Case Study

David Donato, Greg Smith, Craig Gillespie, Stephen Griffiths, Justin Rowntree (Donato Environmental Services), Australia

115. Fly Ash Utilization at Mine Reclamation

Petr Šašek, Pavel Schmidt, and Jiri Mann (Brown Coal Research Institute. j.s.c.), Czech Republic

116. Recycling of Seyitomer-Kutahya Thermal Power Plant Coal Combustion Wastes

Huseyin Koca (Anadolu University), S. Koca (Eskisehir Osmangazi University) and R. Ucar (Seyitomer-Kutahya Lignite Enterprise), Turkey

117. Vitrification of Industrial Waste with Production of Supremax Glass and Flat Glass

Nurcan Tuğrul, Emek M. Derun, Mehmet B. Pişkin, Ihsan M. Türkkal (Yıldız Technical University), Turkey

118. A Characterization Study on Sodium Borohydride (NaBH₄): Hydrogen Storage Medium

Aysel Kantürk, Müge Sari, Ozgül Dere, Sabriye Pişkin (Yıldız Technical University), Turkey

119. Long Term Chemical Evolution of Mine Water After Mine Closure in Czech Republic

Josef Zeman, Kamila Trojackova, and Radomir Tabasek (Masaryk University), Czech Republic

120. Compost Bioremediation of Hydrocarbon-Contaminated Soil Inoculated with Organic Manure

Harrison Atagana (University of South Africa), South Africa

121. Hardpan Formation in Sulphidic Tailings: Column and Humidity Cell Tests
Anthimos Xenidis (National Technical University of Athens), Greece

122. Neutralization of Acid Mine Tailings Using Red Mud Bauxite: Long Term
Evaluation
Josee Duchesne and Martine Paradis (Université Laval), Canada
