

## Beijing International Symposium on Land Reclamation and Ecological Restoration LRER 2014

*Legislation, technology and practice of mine land reclamation*

October 16-19, 2014 Beijing, China

<p><b>Organizer</b></p> <p><b>Host</b> China Coal Society</p> <p><b>Organizers</b> Committee of Land Reclamation and Ecological Restoration, China Coal Society Ecological Engineering Committee, China Ecology Society China University of Mining and Technology (Beijing) State Key Laboratory of Coal Resources and Safe Mining</p> <p><b>Co-Organizers</b> International Affiliation of Land Reclamationists American Society of Mining and Reclamation International Journal of Mining, Reclamation and Environment WWW.ER-CHINA.COM Kailuan Group Huainan Mining Industry (Group) Co. Ltd</p> <p><b>Supporters</b> British Land Reclamation Society Centre for Mined Land Rehabilitation, University of Queensland The Ministry of Land and Resources, PRC Research Center for Eco-Environment Sciences, Chinese Academy of Science Institute of Tangshan Branch, China Coal Technology and Engineering Group Corp. China University of Geosciences (Beijing) Beijing General Research Institute of Mining &amp; Metallurgy</p>	<p><b>Call For Papers</b></p> <p>Please submit your abstract of 300 words before February 15, 2014 on the website: <a href="http://islrer.er-china.com">http://islrer.er-china.com</a>. Only electronic versions of abstracts are acceptable. This symposium will address all issues related to mine land reclamation and ecological restoration.</p> <p><b>Major topics covered by the Conference, but not limited, are as follows:</b></p> <ul style="list-style-type: none"> <li>• The influence of mining on environment</li> <li>• Monitoring, prediction and assessment of and environmental damage in mining areas</li> <li>• Mining methods and measures for minimization of land and environment damage</li> <li>• Mining and environment policies, regulations and standard</li> <li>• AMD generation and treatment</li> <li>• Soil reconstruction and landscape reconstruction</li> <li>• Revegetation and biodiversity protection</li> <li>• Subsidence land reclamation and ecological restoration</li> <li>• Surface mined land reclamation and ecological restoration</li> <li>• Management mine solid wastes and ecological restoration of waste dumps, piles or tailings pond</li> <li>• Case study on mining reclamation and ecological restoration</li> <li>• Land reclamation and ecological restoration theory and technology on Abandoned mine</li> <li>• Contaminated land remediation</li> <li>• Quality monitoring and evaluation of reclaimed land</li> <li>• Land reclamation supervision</li> <li>• Products and industrialization of land reclamation and ecological restoration</li> <li>• Reclamation education, technology transfer and international cooperation</li> </ul>	<p><b>Important Dates</b></p> <p>Deadline for Receipt of Abstracts February 15, 2014</p> <p>Notification of Paper Acceptance March 15, 2014</p> <p>Deadline for Camera Ready Manuscripts June 15, 2014</p> <p><b>Contact US</b></p> <p><b>Fu Yanhua (Helen)</b> China University of Mining and Technology (Beijing) D11 Xueyuan Road Beijing 100081, P.R. ---	--	---

The ISLRER 2014, Beijing International Symposium on Land Reclamation and Ecological Restoration will be held from 16th to 19th October, 2014 at Beijing, China. This symposium is the second land reclamation international conference in China, the first one was Beijing International Symposium on Land Reclamation (ISLR 2000), which has a profound influence on land reclamation in China. After more than 10 years, the research concerning land reclamation has improved a lot both in China and abroad, thus, the main purposes of ISLRER 2014 are: Promoting communication of land reclamation and ecological restoration technology and experience internationally; advancing and renovating of reclamation and ecological restoration technology and practice; accelerating international collaboration in this field.

<b>International Organization Committee</b>	
<b>Chair</b>	<b>Co-Chair</b>
Hu Zhenqi, China University of Mining and Technology (Beijing), China	W. Lee Daniels, International Affiliation of Land Reclamationists, USA Raj Singhal, International Journal of Mining, Reclamation and Environment, Canada
<b>Committee members</b>	
Robert G. Darmody, American Society of Mining and Reclamation, USA	Gao Jixi, Nanjing Institute of Environmental Science, Ministry of Environmental Protection, China
Petr Sklenicka, Czech University of Life Sciences Prague	Chen Tongbin, Institute of Geographic Sciences and Natural Resources Research, China Academy of Sciences, China
Carsten Drebenstedt, Freiberg University of Mining and Technology, Germany	Li Shuzhi, Survey Institute of Tangshan Branch, China Coal Technology and Engineering Group Corp, China
Peter J. Beckett, Laurentian University, Canada	Bian Zhengfu, China University of Mining and Technology
David Mulligan, Centre for Mined Land Rehabilitation, The University of Queensland, Australia	Bai Zhongke, China University of Geosciences (Beijing)
Steve L Smith, British Land Reclamation Society, UK	Zhou Lianbi, Beijing General Research Institute of Mining & Metallurgy, China
Chrsitos Tsadilas, National Agricultural Research Foundation, Greece	Xu Youning, Xi'an Geological Survey Center, China Geological Survey, China
Jeff Skousen, West Virginia University, USA	Luo Ming, China Land Consolidation and Rehabilitation Center, The Ministry of Land and Resources, PRC
Y. Paul Chugh, Southern Illinois University at Carbondale, USA	Zhao Yanling, China University of Mining and Technology (Beijing), China
Vern Pfannenstiel, Peabody Energy, USA	
Howard R. Fox, University of Derby, UK	
Heather. M. Moore, University of Derby, UK	
Gang Chen, University of Alaska Fairbanks, USA
